

## **Environmental Policy - ISO 14001: 2015**

Cinnamon Hotel & Resorts stands committed to continuously providing services surpassing the needs and expectations of its customers. During our operations, we strive to protect, preserve, and nurture the environment in which our hotel's activities have a significant impact.

We aim continually to reduce the usage of Water, Energy, Production and Packaging Materials used in our operations to promote recycling and to add value to waste. We also aim to continuously reduce operational activities including prevention of pollution of water, air, noise, heat, light, land and wildlife which has a significant impact to the environment and other specific commitments relevant to the context of the organization.

In order to achieve this objective CH&R is committed to educate, train and motivate employees and all our business associates including external service providers and suppliers to enhance awareness of the importance in integrating environmental protection into their daily routine. We ensure compliance obligations such as environmental regulation and legislature affecting our hotels are considered and met when environmental plans and procedures are developed.

We have developed and implemented an Environmental Management System to meet ISO 14001:2015 International Standard requirements to ensure our continuous commitment to preserve and protect the environment for the benefit of future generations.
